

PROJECT ENGINEER

Cyclops is a fast-growing and dynamic company specialised in project management for industrial investment projects. To industrial clients we are a flexible and independent partner who offers complete engineering, procurement and project management (EPCM) services 'from your first idea to start-up'.

As a flexible and independent partner, we analyse and realise every project in close relationship with our clients. We take ownership of the project, apply an integrated project approach and dedicate only the appropriate resources with the right experience and skills.

Among the services we provide are Strategic Consultancy & Master Planning, Feasibility Study, Project Preparation, Project Execution, Start Up & Operational Management, Turnaround Coordination and Project Auditing.

Cyclops has vast and substantial years of experience in industrial project management for companies such as Pauwels Sauces, Cosucra, Ineos, GSK, Tessenderlo Group, Arcellor Mittal, Qualiphar, Mr Mallo, CSM, ...

We are currently looking for several **PROJECT ENGINEERS**, to support the growth of our company.

JOB DESCRIPTION:

- As a Project Engineer you will be responsible for industrial projects.
- You will act as Owner's representative for our clients or will be part of a bigger project team.
- As a Project Engineer you will organize your work and ensure that projects are executed safely, qualitatively, timely and within budget.
- The projects you will be involved in as a Project Engineer comprise a variety of industries such as Food, Pharmaceutical, Chemical, FMCG, Metallurgy, etc.

PROFILE DESCRIPTION:

- You have a master's degree in Engineering or equivalent.
- As a Project Engineer, you have the ability to translate the demands of the client into practical realizable projects.
- With your outstanding people management and communication skills you succeed in getting the best out of the project team, which includes suppliers, users, maintenance staff, etc.
- As a Project Engineer, you have a proactive "make-it-happen" mentality.
- You are resistant to stress and pressure.

- You are absolutely dedicated to your work, which you execute with extreme precision and an eye for detail.
- You are flexible to travel within Belgium.
- Your software skills include Office Suite and Microsoft Project.
- You speak Dutch, English or French.

OFFER:

- Cyclops is a fun, dynamic and fast-growing company which offers you a challenging job with direct responsibility for varying projects.
- We offer a competitive salary package, including laptop + professional software, mobile phone, car, etc.
- As we grow as a company, we enable you to grow in your profession. If you want to combine fun and challenges, Cyclops is the place to be!
